ENVERAI TECH INC. • TEAM CITADEL / ANDALAU

CONFIDENTIAL PITCH DECK 2026

The \$300B+ MSME Credit Void

PROBLEM SPACE

\$300B+

CREDIT DEFICIT IN INDIA

Over 63 Million MSMEs drive 30% of national GDP, yet 70% of New-to-Credit (NTC) applicants are summarily rejected due to zero bureau footprint.

SYSTEMIC EXCLUSION

14 Days

MANUAL TURNAROUND TIME (TAT)

Lenders rely on manual Chartered Accountant (CA) statement cross-verification and physical collateral inspections, costing \$25+ per evaluation.

HIGH COST OF UNDERWRITING

85%

UNSTRUCTURED ALTERNATE DATA

Rich operational data (GSTN returns, Sahamati Account Aggregators, UPI POS debits, MCA filings) remains completely unmined by traditional bureaus.

UNEXPLOITED TELEMETRY

Autonomous Alternate-Data Underwriting

THE BREAKTHROUGH

Instant Financial Health Card (300–900)

Artificer ingests multi-modal bank statements, GST invoices, and registry records to derive a verified, institutional-grade credit score in under 10 seconds.

- [+] **Deterministic Ratio Modeling:** Cash Buffer Ratio, Annualized Run Rate, Debt Capacity.
- [+] **GSTR-1 vs GSTR-3B Reconciliation:** Automated tax discrepancy & turnover verification.
- [+] **Character & Legal Risk Engine:** MCA21 status, director integrity & litigation records.

Three Core Pillars

10-Second Processing

Replaces 14-day manual underwriting turnaround time.

Zero Hallucinations

Traceable line-item citations with source data auditing.

\$0.05 Unit Economics

99.8% cost reduction over legacy underwriting manual labor.

Multi-Agent Persona Triad

AGENTIC ORCHESTRATION

AGENT 1

FETCHA

Gemini 2.5 Flash • Ingestion & Scraper

- [+] Multi-modal parsing of messy bank PDFs, CSVs, and Sahamati AA JSON feeds.
- [+] Live Web Scraper for GSTIN tax validation and MCA21 corporate registry search.
- [+] Strict canonical schema normalization with zero data leakage.

AGENT 2

GEEK

Gemini 2.5 Pro • Telemetry Matrix

- [+] Computes Cash Buffer Ratio (Closing Balance / Monthly Debits; benchmark > 0.15x).
- [+] Calculates Annualized Run Rate and Debt Serviceability Capacity.
- [+] Flags NACH/ECS inward dishonors and return friction penalties.

AGENT 3

ORC

Gemini 2.5 Pro • Chief Credit Officer & XAI

- [+] Synthesizes 300–900 Health Score and prime risk categorizations.
- [+] Generates immutable line-item evidence citations.
- [+] Powers Conversational XAI Drawer for zero-greeting loan officer interrogation.

The Institutional Underwriting Cockpit

LIVE PLATFORM UI

1. Ingestion & Pre-Evaluation

- [+] **Single-Page Viewport Containment:** Zero unnecessary vertical scrolling on initial landing.
- [+] **Interactive Scraper Switch:** Fetcha live web scraping toggle for GSTIN / MCA registries.
- [+] **Agami HuggingFace Integration:** One-click ingestion of real-world Indian MSME training records.

2. 2-Column Analytics Citadel

- [+] **Left Column:** 300–900 Score dial, Risk Tier badge, CCO Narrative, and Geek Telemetry Matrix.
- [+] **Right Column:** Explainable AI reasoning, Immutable Line-Item Evidence Ledger, and Zero-Hallucination Safety Seal.
- [+] **Interactive Directive Chips:** Instant one-click query templates to test Orc's underwriting decisions.

3. Conversational XAI Drawer

- [+] **Floating Geometric Owl Emblem:** Triggered instantly from anywhere in the cockpit.
- [+] **Zero Token Waste:** Skips pleasantries and greetings to deliver mathematically grounded forensic answers.
- [+] **Full Auditability:** Underwriters can challenge cash buffer ratios or simulate limit expansion (e.g. ₹50L).

Enterprise Security Citadel

INSTITUTIONAL TRUST

Access Control Matrix

- [+] **Google SSO Domain Lock:** Exclusively permits verified `@enveraitech.com` identities; all outside attempts rejected with instant sign-out.
- [+] **Citadel Brick Wall:** Hardened master password protocol (`Andalaus / Citadel@296`) with show/hide eye toggle.
- [+] **5-Minute Silent Sentinel:** Orc automatically locks idle sessions after 300 seconds for banking compliance.

Live SecOps & Auditability

- [+] **Real-Time Slack Dispatch:** SecOps alerts broadcasted immediately to Slack / iOS Spark on every login attempt and evaluation run.
- [+] **Master Admin Citadel:** Full telemetry on API costs (\$0.05/run), evaluation volumes, and active daemon health.
- [+] **Zero-Trace File Scrubbing:** Raw bank statements processed in memory and immediately sanitized post-analysis.

Market Opportunity & Monetization

BUSINESS MODEL

\$1.2B

INDIA SAM FOR MSME UNDERWRITING SAAS

Over 1,200 commercial banks, small finance banks (SFBs), NBFCs, and digital co-lenders process ~50M loan applications annually.

B2B Enterprise SaaS Model

- [+] **Per-Evaluation API Fee:** ₹50 (\$0.60) per underwriting call (98% margin over \$0.05 LLM cost).
- [+] **Annual Core Platform License:** \$25,000 – \$100,000 / year for on-premise Vertex AI private cloud deployment.
- [+] **Lending Co-pilot Add-on:** \$500 / seat / month for human underwriters utilizing the Orc XAI Interrogation Drawer.

92%

GROSS MARGIN PROFILE

High-velocity multi-agent routing (Gemini Flash for extraction + Gemini Pro for synthesis) drives industry-leading gross margins.

Competitive Moat

COMPETITIVE MATRIX

Legacy Bureaus (CIBIL / Experian)

- [+] Requires 12+ months of prior loan repayment history.
- [+] Blind to live GSTN tax compliance and bank closing buffers.
- [+] Zero explainability (single opaque 3-digit score).
- [+] Static monthly updates (no live registry scraping).

Generic LLM Wrappers

- [+] Severe hallucination risk in financial calculations.
- [+] Single-prompt execution without multi-agent verification.
- [+] Lacks deterministic cash buffer and bounce ratio modeling.
- [+] No institutional security or domain-gated MFA citadel.

EnverAI Artificer Citadel

- [+] **Purpose-Built for NTC MSMEs:** Zero bureau footprint required.
- [+] **Triad Agent Verification:** Fetcha \$ ightarrow\$ Geek \$ ightarrow\$ Orc segregation.
- [+] **Explainable XAI Citadel:** Immutable line-item citations with source data auditing.
- [+] **Enterprise Governance:** Strict domain gate, Slack SecOps, and 5-min silent session sentinel.
